

MIDI Auto-Accompaniment Section

***** PLEASE READ CAREFULLY - VERY IMPORTANT !!! *****

1.

MAAS doesn't need to be installed, so please install it into a directory of your choice (e.g. C:\MAAS) and then execute ...\MAAS\maas.exe.

2.

Setup will NOT modify your configuration, but only creates 1 folder (...\\MAAS) and 2 subfolders. If you would like to remove the application from your system, simply delete the program folder (...\\MAAS). That's all.

3.

The software package comes only with 35 demo-styles. Although the author does NOT sell any styles and does NOT take a guarantee for this that styles in the Internet or somewhere else are available, you should go online and visit <http://www.styles.xdigits.com>. You should find altogether more than 850 x 2 ready-to-use high-quality styles for free download.

However note: These styles can only be processed with a registered version of MAAS.

The DEMO version has in general all features of the registered version except for the saving capabilities and the fact that only the about 35 supplied demo styles can be (time-limited) processed. The registered version saves arrangements either as *.rca files (MAAS's own style format) or as *.mid files (MIDI files). MAAS recognizes the following chord types (Base: C): C, C-m, C-7, C-m7, C-dim, C-sus4, C-9, C-5b, C-M7, C-aug, C-6, C-mM7, C-m6, C-m9, C-m5b, C-aug7, C-sus7.

4.

MAAS comes with a help file named maas.hlp. If you can't open or view this file in Windows Vista, Windows 7, Windows 8 then download "WinHlp32.exe" for your OS and install it. It'll install the Windows Help program and you'll be able to view the .hlp file. Learn more e.g. at

<http://www.askvg.com/how-to-open-help-files-hlp-in-windows-7-that-require-windows-help-program-winhlp32-exe/>

5.

Want a personal license key and additional registration instructions immediately? The registration fee is only US\$ 6.95 (exceptional price reduction from originally US\$ 24.50!). The online ordering process is automated and secure. Within minutes - (as soon as your credit card payment was approved) - you will receive two e-mails ...

- * details about your payment and an invoice for your accounting
- * your license code and additional registration instructions
